

Ramit Goyal

Full Stack Developer | Backend Developer | Software Engineer Intern

ramitgoyal588@gmail.com — +91-8307730036 — Daffarpur, Punjab — [GitHub](#) — [LinkedIn](#) — [Portfolio](#) — [LeetCode](#)

PROFESSIONAL SUMMARY

Aspiring **Software Engineer Intern** and second-year Computer Science (AI/ML) student at Chandigarh University, specialising as a **Full Stack Developer** and **Backend Developer** with the MERN stack. Delivered production-grade applications including a telehealth platform, AI physiotherapy system, and Teacher Management System. Co-authored a research paper (2026) and solved 150+ DSA problems on LeetCode.

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript (ES6+), C/C++
- **Frontend:** React.js, HTML5, CSS3
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB
- **AI/ML Tools:** MediaPipe, OpenCV, WebRTC, AI Integration
- **Tools & Practices:** Git, GitHub, Postman, VS Code, Agile/Scrum, CI/CD
- **Core CS:** Data Structures & Algorithms, OOP, Operating Systems

EXPERIENCE

Speaking Hands (Ed-Tech Startup)

Dec 2025

Software Development Intern — Full Stack Developer (MERN)

Remote

- Built a full-stack **Teacher Management System** using React.js, Node.js, Express.js, and MongoDB, digitising academic records and streamlining administrative workflows.
- Automated internal record-keeping processes with Node.js scripts, reducing manual data entry and improving team efficiency.

National Hackathons

2025

10x Finalist — Zero to One, Built for Bharat, IIT BHU Hackathon, Green for Bharat

- Shipped AI/Web full-stack MVPs in 24–48 hours across 4 national competitions, placing in the top 10 in each.
- Led backend API and AI module development using Node.js and Python in cross-functional teams of 4–6 engineers.

FEATURED PROJECTS

RemedyEase — Telehealth Platform

[Live Demo](#)

Tech: React.js, Node.js, Express.js, MongoDB, WebRTC, REST APIs, Git

- Architected a full-stack platform enabling real-time video consultations via WebRTC with role-based access for patients and doctors.
- Integrated an AI assistant using REST APIs to handle patient queries and basic triage, reducing dependency on manual support.

PhysioCare AI — Physiotherapy System

[GitHub](#)

Tech: Python, MediaPipe, OpenCV, REST APIs, Git

- Built a real-time AI system using MediaPipe to track 33 body landmarks and evaluate posture accuracy during physiotherapy exercises.
- Automated session report generation in PDF format based on posture scores, removing the need for manual therapist documentation.

Student OS Platform

[Live Demo](#)

Tech: React.js, Node.js, Express.js, MongoDB, REST APIs, Git

- Built a full-stack productivity platform featuring a study scheduler, notes manager, and task tracker with persistent data storage via MongoDB.
- Implemented a component-based React frontend with lazy loading for optimised rendering performance.

EDUCATION

Chandigarh University

2024 – 2028

Bachelor of Engineering in Computer Science (AI/ML)

Second Year

Eastwood International School

2023 – 2024

Higher Secondary Education (Class XII)

ACHIEVEMENTS

- **Research:** Co-authored “X-MultiRec: A Hybrid Graph-Attention Framework” — published/under review (2026).
- **Competition:** Secured **2nd Prize** in a University-level Java & DSA Competition.
- **LeetCode:** Solved 150+ DSA problems in Java; Top 30% globally on LeetCode.
- **Open Source:** Maintaining PhysioCare AI on GitHub as an open-source project.
